

10 GOLDEN SAFETY RULES

1. I take my time to be safe before starting any activity.
2. I keep my workplace clean and tidy.
3. I report any unsafe situation or damage immediately to my supervisor and my colleagues.
4. I speak to my colleagues who I believe are behaving unsecure and encourage them to work safely.
5. I am pleased to take advice from colleagues who draw my attention to my insecure behaviour.
6. I will never ignore or manipulate safety devices or equipment.
7. I will only accept work that I can and I am permitted to do.
8. I will act on the principle: No activity is so important or so urgent that I do not have the time to do it safely.
9. For me is every day a „Safety Day“.
10. We must learn from mistakes.
